To the Trade:

This catalogue shows the various patterns of Rope and Twist Mouldings we manufacture. We believe you will find the wide variety of shapes and patterns will meet about any need you may have for this type of Trim.

We manufacture Rope and Twist Mouldings in any diameter from 1/4" to 1-3/4" inclusive. They can be ordered in full, half or quarter round, and, unless otherwise specified, Right Hand Twist will be furnished. They are made in any standard cabinet wood.

We are proud of our quality Rope and Twist Mouldings. They are smoothly cut and the latest equipment is used in production of these patterns.

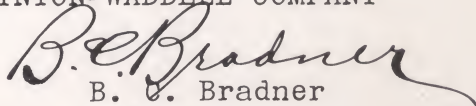

In ordering, it is important that you indicate the pattern, kind of wood, diameter, and whether full, half or quarter round.

Special shapes can be furnished, such as full round, flat one side, or half round with rabbet, depending on your use of the moulding ordered.

We have increased our production of Rope and Twist Mouldings recently and this enables us to make reasonably prompt shipments.

Your inquiries and orders are solicited.

Yours very truly,
BOYNTON-WADDELL COMPANY
